The El Vicario Reservoir is located 15 km away from the City, where there are 189 places adapted for the practice of fishing and a lot of free fishing areas.

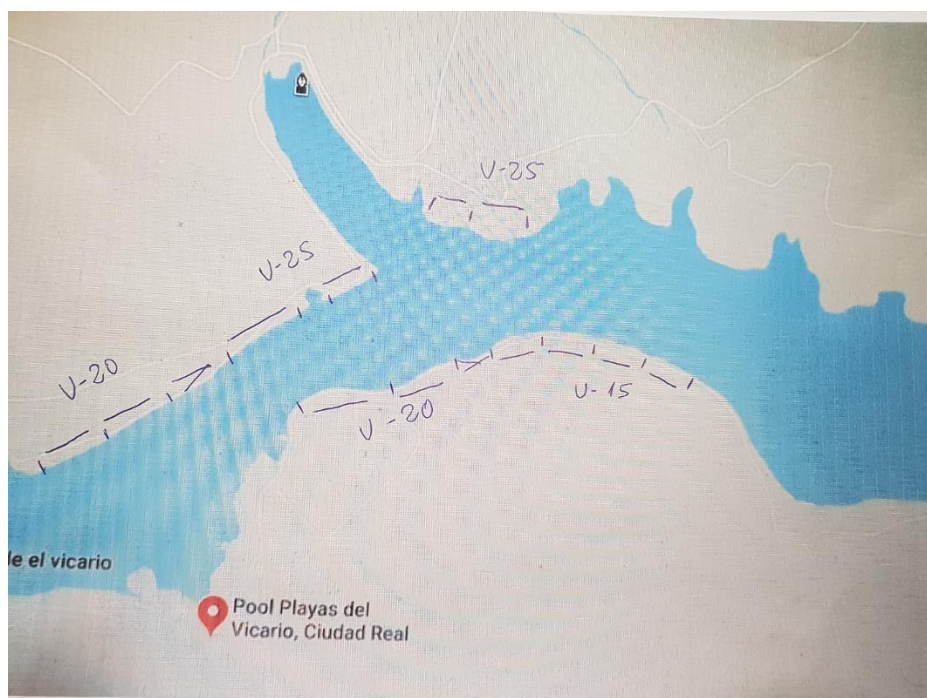

VENUE

The competition will take place in the “Reservoir of El Vicario”. The depths range between 1.5 meters and 9 meters at 11 meters away. Fish ranging from 50 Gr. to 8 kg in weight, Black-Bass, Pike, Bleaks, Carps, Carassio and Catfish. Carps, Carassio and Catfish from 50g to 150g are the most usual fish.

ESSENTIAL ANTI-DOPING ADVICE

Athletes are reminded if they take any medication they must check it against the WADA Prohibited Substance & Methods list.

Particular attention must be paid to the use of anti- hypertensive agents, especially diuretics, which are popular in singular preparation and/or in a combination with other normally permitted drugs.

Diuretics are always forbidden.

For these reasons, it is necessary for every athlete or National Federation to check the list for prohibited substances and process a TUE as necessary. The Therapeutic Use Exemption (TUE) must be granted before taking a prohibited medication.

An application for a TUE must be requested 30 days before taking part in the championships. The application forms must be filled in carefully with your physician/doctor who must authorise the application. A physician's certificate or prescription on its own does not mean that the athlete has permission to use the prohibited substance or method.

The application should be completed either in English or French directly to the office of the CIPS President.
